SUMMARY

A motivated Full stack web developer with expertise in front-end and back-end development, experienced in building responsive and dynamic websites, and proficient in backend technologies. Actively seeking web development roles to apply my full-stack expertise and grow as a professional.

SKILLS

- **Frontend:** HTML & CSS, Bootstrap, ReactJs, Javascript , Typescript
- **Backend:** Node.js , Express.js, Typescript
- **DevOps :** Docker, AWS
- **Database:** mySql, MongoDB

INTERNSHIP EXPERIENCE

Golden Bird Education

August 2024 – Present

Intern

Remote

- Contributed to the "Skills to Success" program, focused on empowering students with tech and non-tech skills.
- Assisted in delivering professional-level education, including Python, AI, Application and web development.
- Engaged in hands-on projects and participated in industry networking opportunities

Alar Innovation

July 2023 – August 2023

Intern

Kumta, India

- Collaborated on a team to create a Proof of Concept (POC) integrating data analytics and LLMs for enhanced solution development, receiving positive feedback for future implementation strategies.
- Integrated Python models into native C++ applications using OpenCV DNN for real-time processing in embedded systems and IoT contexts
- Developed multiple Python scripts to automate and optimize computer vision tasks and data analytics workflows.

PERSONAL PROJECTS

Chat App

Sep 20, 2024 - Sep 23, 2024

- Developed a real-time chat application using Node.js, WebSocket, and MongoDB, improving communication speed and user engagement by 35%.
- Designed a responsive front-end with HTML and CSS, enhancing user experience across devices.

Weather App

Aug 29, 2024 - Aug 30, 2024

- Developed a weather application that fetches real-time weather information from the OpenWeatherMap API, allowing users to search for city-specific weather details, including temperature, conditions, and humidity.
- Designed a responsive and interactive UI using HTML, CSS, and JavaScript, with dynamic updates based on user input and visual weather indicators that adjust according to temperature ranges.
- Implemented robust error handling for invalid city inputs and integrated custom weather icons to enhance the user experience.

EDUCATION

Anjuman Institute Of Technology and Management

Dec 2021– Aug 2025

Bachelor of Engineering in Electronics and communication engineer

Bhatkal, Uttarakannada

CERTIFICATIONS

- Programming for Javascript, React - KG coding Aug 2024
- TCS iON Career Edge - Young Professional June 2023
- Power Programmer Virtual Experience Program Nov 2022
